

2007 Pinot Noir Windhill

Windhill Vineyard, twenty miles west of Portland, is perennially one of Oregon's finest Pinot Noir vineyards. Planted in 1974, the vineyard became part of Elk Cove's portfolio in 1996 when Elk Cove purchased it. We have continued to produce limited production Single Vineyard designated wines from Windhill Vineyard since 1979! Temperate winds that blow across the vineyard's gentle south-facing slopes and a lower elevation (500 feet) situation than the estate vineyards at Elk Cove, allows for earlier ripening. The combination of super low yields, volcanic soils (Laurelwood) and great plant material (old vines – own rooted Pommard clone) are all essential elements for the finest Pinot Noir from this site in Western Oregon. Furthering our belief in sustainability, Windhill has been farmed with completely organic farming practices since 1999.

Vintage 2007 is one that will certainly be discussed. Some say it's a grower's year, where meticulous thinning, canopy management and spray routines helped the fruit left hanging on the vine. Others maintain this is a winemaker's year, where the most experienced and agile artists will be able to take the fruit given by Mother Nature and craft some outstanding wines. All agree that it brought some challenges, yet with the rain reminiscent of 2005 and much less than the last really rainy harvest of 1997, most in the valley know how to adapt; taking advantage of this year's attributes such as lower sugars (lower alcohols) and higher acids. We love the classic cool Oregon climate in this year, which should give us more finesse rather than extraction and possibly even better ageability. This vintage will have stellar wines, just perhaps with more variability.

Viticultural Data:

Vine Age: 33 years
Yield: 2 tons/acre
Harvest Sugars: 22.3 Brix

Enological Data:

pH: 3.80
Bottled: August 2008
6 Bottle Cases
Produced: 316
