Alexana Estate Vineyard and Winery was born out of vintner Dr. Madaiah Revana's love of the great wines of Burgundy. After an extensive search for the ideal region and land, Dr. Revana acquired an 80-acre estate uniquely located on the northwestern edge of the Dundee Hills AVA where iron-rich volcanic soils converge with the ancient marine sedimentary soils of the Pacific Ocean. With a total of 18 soil types, each vineyard block of Pinot noir, Chardonnay, Riesling and Pinot gris is individually cultivated in celebration of the property's diverse soils, clonal selections, and microclimates using LIVE certified sustainable farming practices. In the cellar, winemaker Bryan Weil carries out a minimalist approach to winemaking by focusing on small lot fermentations and native yeasts to produce wines that express a distinct sense of time and place. 'Diverse Soils, Complex Wines'.

In 2006 we moved to Oregon from Napa, where Brian had been working in wine for ten years. We bought property in the Willamette Valley (about an hour outside of Portland). We started with a dream and made our first 150 cases in 2006. This Oregon adventure is inspired by our desire to grow grapes, make wine, and to have the space for all of Clare's animals and Brian's projects. We named our farm and winery after our goal to provide a gracious and welcoming table for ourselves and friends, with a cornucopia of hand-crafted food and wine. And now, just over ten years after we took the leap, we have developed this land into a working farm and built a barn and winery. We feel lucky to live here and we are still in awe and deeply grateful for the chance to build this dream and share it with you!

Founded in 1992, the Cristom Vineyards Estate spans nearly 240 acres in Oregon's Eola-Amity Hills, which we farm utilizing biodynamic principles. Second-generation owner and winegrower Tom Gerrie leads winemaker Steve Doerner and our tenured production and vineyard teams in crafting elegant, dynamic wines that are a testament to both our old world-style winemaking techniques, and our stewardship of the Cristom Estate. All of our Pinot noirs include whole cluster fermentation by native yeasts, are unfiltered, and are handled minimally during the winemaking process, allowing the purity of our land to shine through.

Elk Cove Vineyards has been producing wines from Oregon's Northern Willamette Valley since 1974. While our focus is on Pinot Noir, we also champion other grape varieties that thrive in our cool climate: Pinot Gris, Pinot Blanc, Riesling and Chardonnay. At our historic winery property in the Yamhill-Carlton AVA, we utilize hand-sorting, small-lot fermentation and extremely gentle handling to protect the inherent qualities of our fruit. Elk Cove owns and farms vineyards across six distinct, separate properties. Through specific site selection and meticulous vine management, we achieve concentration and depth of flavor in the vineyard. In addition to our Willamette Valley Pinot Noir, we produce Single Vineyard Pinot Noirs from each of our six estate properties, reflecting the terroir of both the Chehalem Mountains and the Yamhill-Carlton AVAs. These bottlings are typically from older vines, and -we hope- truly tell the story of each vineyard site: Mt. Richmond, La Bohème, Roosevelt, Goodrich, Clay Court and Five Mountain.
